*Does your child struggle with reading?  
Is your child unmotivated to read because reading is tedious or difficult?  
Would you like ideas for improving your child's reading?*

If you answered yes to any of these questions, please attend SEDOL's Family Reading Program. You will learn helpful tips and strategies for supporting and encouraging your child's reading.

**The Family Reading Program** is an exciting opportunity for parents/caregivers of Children receiving special education services to receive information and tools needed to support their students' reading skills at home and foster a love of reading! Each month a new topic will be presented, an activity will be shared that parents can do at home with their child, and a FREE BOOK will be given to each family to enjoy with their child!

This program is free of charge and is open to all parents within the 36 member school Districts served by SEDOL. Babysitting *will not* be available. Refreshments will be served.

Please **register by Feb. 10** to assure we have sufficient materials.
